Hello Vince and Gina,

Attached are the documents for the ERC re-review of ETBE including:

1. A clean version of the tox review
2. A redline version of the tox review
3. A clean version of the supplemental information
4. A redline version of the supplemental information
5. A summary of the major revisions to the document post ERC review
6. The draft charge questions

Please note that as a result of the "compare" feature, some of the tables in the redline are shattered and disjointed, and it looks like the entire first part of the alpha-2u MOA section text got put into one column of a table. Because of these Word formatting issues, we recommend that ERC read the "clean" versions, referring to the "compare" versions only for very specific sections of text, and disregard any formatting aberrations.

Please let us know if you have any questions.

Best regards,

Andrew, Keith, and Jason
